

In Vitro Fertilization and Genetic Testing for Qualified Conditions

- Result of House Bill 214 (2020 General Session) “Insurance Coverage Modifications”
- This amendment seeks approval from the Centers for Medicare and Medicaid Services (CMS) to provide in vitro fertilization services and genetic testing for Medicaid eligible individuals who have specific qualified conditions. These qualified conditions include:
 - Cystic fibrosis
 - Spinal muscular atrophy
 - Morquio Syndrome
 - Myotonic dystrophy
 - Sickle cell anemia
- Eligibility
 - Individuals eligible under this demonstration must be Medicaid eligible individuals who meet all of the following requirements:
 - Age 18 through 35
 - Has been diagnosed by a physician as having a genetic trait associated with a qualified condition listed below:
 - Cystic fibrosis
 - Spinal muscular atrophy
 - Morquio Syndrome
 - Myotonic dystrophy
 - Sickle cell anemia
 - Intends to get pregnant with a partner who has been diagnosed by a physician as having a genetic trait associated with the same qualified condition as the individual
- Benefits
 - Qualified Medicaid members will be eligible to receive the following services:
 - Preimplantation genetic diagnosis to test embryos for specific genetic disorders prior to transfer to the uterus; and
 - In vitro fertilization services.
 - Qualified Medicaid members may receive these services once per lifetime
- Proposed Demonstration Timeframe
 - The State intends to implement the proposed benefit as soon as possible after approval
- Population Impacted
 - Approximately 50 individuals may be eligible per year if this amendment is approved
